- Phùng Quang Minh Trí – SE60746
- Nguyễn Chí Kha – 60351

Supervisor:

- Kiều Trọng Khánh

Overview

1. Problem
2. Solution
3. Demo
4. Q&A

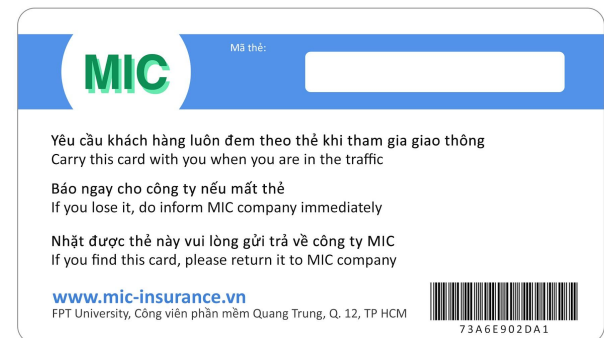

1. Problem

- Insurance customer **forget contract expired date**.
- When a contract is expired user have to **handy register a new contract**, this requires unnecessary time and inconvenient for customers.
- **Claim/compensation process is ineffective** between customer and insurance company.
- Multiple insurance contract **required multiple certificate papers**, this is waste of resources and inconvenient for customer to keep the papers.
- Insurance companies **cannot record accident / punishment effectively**.

2. Solution

MIC System

- **Sends notifications** to customer when contract is nearly expired or expired.
- Provides mechanism to **renew contracts**.
- Provides **management system for claim/compensation requests** from customer.
- Saves resources by provides **multiple insurance service in a single card** using NFC technology.
- Provides effective **management system** for insurance companies.
